Rennet T. Mathew

Kaniyakumari, India · rennetmathew29@gmail.com · +91-9790465247 · Portfolio · LinkedIn

Profile

B.Tech student in Artificial Intelligence and Data Science with hands-on experience in machine learning, data analysis, and AI-driven solutions. Passionate about solving real-world problems using data and algorithms. Currently advancing AI/ML skills through industry-focused projects and certifications.

Education

St. Joseph's Institute of Technology, Chennai, India — *Nov 2022 – Jun 2026*
B.Tech in Artificial Intelligence and Data Science — *CGPA: 7.7/10*
Jayamatha Matriculation School, Nithravilai, Tamil Nadu — *Jun 2021 – May 2022*
Higher Secondary Certificate (Computer Science)

Internship

Shrishti Innovative, Trivandrum, Kerala — *Jun 2024*
Data Science Intern

- Analyzed real-world datasets using Python and pandas, extracting actionable insights.
- Built and evaluated ML models, increasing prediction accuracy by 10%.
- Automated preprocessing workflows, reducing manual effort by 20%.

Technical Skills

Languages: Python, Java, SQL
AI/ML Tools: scikit-learn, Pandas, NumPy, Matplotlib, Seaborn, OpenCV, TensorFlow (basics), Prompt Engineering
Web & Tools: Git, GitHub, Jupyter Notebook, VS Code
Concepts: Supervised/Unsupervised Learning, Regression, Classification, Data Preprocessing, Model Evaluation, Data Structures and Algorithms (DSA)
Soft Skills: Problem Solving, Consistent Problem Solving, Teamwork, Adaptability, Time Management

Projects

CarDekho Car Price Prediction Model — View Project
Python, Pandas, NumPy, Matplotlib, scikit-learn, Flask

- Built an ML regression model using CarDekho dataset to predict used car prices based on features like year, fuel type, transmission, and ownership.
- Applied preprocessing, label encoding, and feature engineering to achieve an R^2 score of 0.89.
- Developed a Flask-based web interface for interactive model deployment.

1% Funding Platform — View Project
TypeScript, Bolt.AI, HTML, CSS

- Developed a stock market simulation platform for Indian options traders with funding features using Bolt.AI workflows.
- Integrated authentication and challenge flow with 100+ successful completions.
- Enhanced UI/UX, reducing user support requests by 20%.

Certifications

Data Mining (NPTEL), IIT Kharagpur — *Mar 2025*
Python for Data Science (NPTEL) — *Aug 2024*

Extracurricular Activities

Member, College Coding Club — *2023 – Present*
Engaged in hackathons and collaborative coding projects; exploring open-source contributions.
